### **In Stephen's Words ...**

- *The basic training is always the same no matter what the horse is destined to do* ●
  - *Better a sharp shock; never a dull thud* ●
  - *You have to train a horse's mind through its body* ●
    - *Concertine your horse* ●
  - *It doesn't matter if it's not perfect; the reaction is more important* ●
    - *You think it; he does it* ●
  - *There's no room for a halfway house situation* ●
